SOUND KIDNEYS AND NO BLADDER MISERY

The time to cure kidney trouble is while it is only trouble—Before it seizes the Dropsy, Diabetes, Gravel or Bright's Disease.

The moment you suspect any kidney, bladder or urinary disorder, or feel a constant or dull aching in the back, sides or groin, or the urine is thick, cloudy, offensive or full of sediment, irregular of passage or attended by a sensation of scalding you should begin taking Pape's Diuretic as directed with the knowledge that there is no other medicine at any price made anywhere else in the world, which will effect so thorough and prompt a cure.

Pape's Diuretic acts directly upon the kidneys, bladder and urinary system; cleanses, vitalizes and regulates these ducts, organs and glands, ending at once such miserable symptoms as headache, back, prostatic trouble, heartache, dizziness, weakness, nervousness, rheumatism and darting pains, inflamed or puffy eyelids, irritability, bilious stomach, wind-out, feeling, sleeplessness or suppressed, painful or frequent urination (especially at night) and other distress.

Do not mistake another inactive with a lame back, or neglected, inactive kidneys or bladder misery, for after taking Pape's Diuretic a few days you will be relieved and know all danger is passed.

Your pharmacist, physician, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio who prepare Pape's Diuretic—50 cent treatment—sold by every druggist in the world.

HOW TO GAIN HEALTHY FLESH

Z. C. M. I. Drug Dept. Advise Use of Samose.

While thinness may not be a disease, yet it is in reality a condition that needs attention. Under the natural flesh will soon be attained.

This remarkable flesh-forming food strengthens the system generally and builds up the fleshy tissues so that good natural plumpness results.

An ounce of flesh is better than a pound of theory. Z. C. M. I. Drug demonstration of the flesh-forming power of Samose is to have it tried by their customers, and to induce them to use it, they offer to pay for the Samose in case it does not give satisfaction. No stronger proof than this can be given of their faith in it. They have seen hundreds who were weak, thin and scrawny, become plump, robust and strong, solely through the use of Samose.

If you are thin or in poor health, take advantage of this offer. You have no risk whatever, and the chances are 98 out of 100 that you will notice a gain in weight after using Samose for a week or ten days.

AMUSEMENTS

Theater—"The Chorus Lady" with clever Rose Stahl in the title role, is apparently as popular as ever judging from the audiences at the Theater. The production runs all week with the customary matinees.

The Fortune Hunter—"The Fortune Hunter," a bright, clean American comedy, by Winchell Smith, when after five performances at the Broadway theater in the Salt Lake Theater for five nights, beginning Tuesday evening, Oct. 25, with matinees on Wednesday and Saturday. It is said to be broadly and comically an excellent company headed by Fred Niblo, and including Alma Belwin, Frank Bacon, J. E. Milner, Phil. Bishop, Frank Beamon, Fred Gibbs, Lento Fulwell, Regina Connolly and many others. Fred Niblo characterizes the role of Nat Duncan, a serious individual, who all unconsciously carries the air and graces of Broadway into Radville, Pa. "The Fortune Hunter," one of the successes dramatically, and from the box office point of view, of the season, is a collection of public taste. It is a sermon preached by a subtle humorist. In "The Fortune Hunter" Nathaniel Duncan, reared and educated in luxury, reaches the end of his career in his native town after five years of being compelled to work for a livelihood, he acknowledges that he is a failure in everything he has attempted. In his desperation he accepts the scheme for marrying a fortune under the rules set down by his friend, and goes to a country town to work them out. Here he finds the poor old dronist, discovers that he is more helpless than Duncan ever was, and in the assumption of the old man's troubles, his own latent abilities are developed, and from a failure in life Duncan carves out for himself a competence by his own efforts. The dramatist's assertion that "the boy has great business ability," puts Duncan on his mettle, and he goes forward with a will. He likes the work, and later, because he loses his pessimism and believes in himself. It shows that every business man has some latent ability which he has which if he will but discover it, will lead to happiness and prosperity.

Orpheum—Big audiences are enjoying the Orpheum company this week. The entertainment is especially strong on musical numbers while the comedy turns are somewhat above the average.

Colonial—"The Colonial is dark this week, but next week Max Pigman in "Mary Jane's Pa" will be the feature.

Garlick—"The Barrier," a high-class melodrama, is the offering at the Garlick this week by the Ingersoll stock company. Each member is happily cast with the result that a very even and interesting production is the result.

Shubert—"Jakey, Mikey and Ikey," a musical melange, presented by the Curtis Musical Comedy company, is drawing heavily at the Shubert this week.

Florence Picture Houses—"The Luna, Isak and Elito, the three popular Florence motion picture houses, are doing great business this week.

Benefit Concert—"The concert in aid of the Orpheum and Day Nursery will be held Monday evening next, in the Salt Lake Theater, when Misses Sybella Clayton and Hortense Kimball will appear in public for the first time preceding their departure for Europe. That their many friends are availing themselves of the opportunity is very manifest from the fact that the house was absolutely full already. So there will be a large and appreciative audience waiting to greet the ladies and Willard Welke when the curtain rises.

OYSTERS NOW PADLOCKED.
Trainmen Denied Opportunity to Indulge Their Appetites.

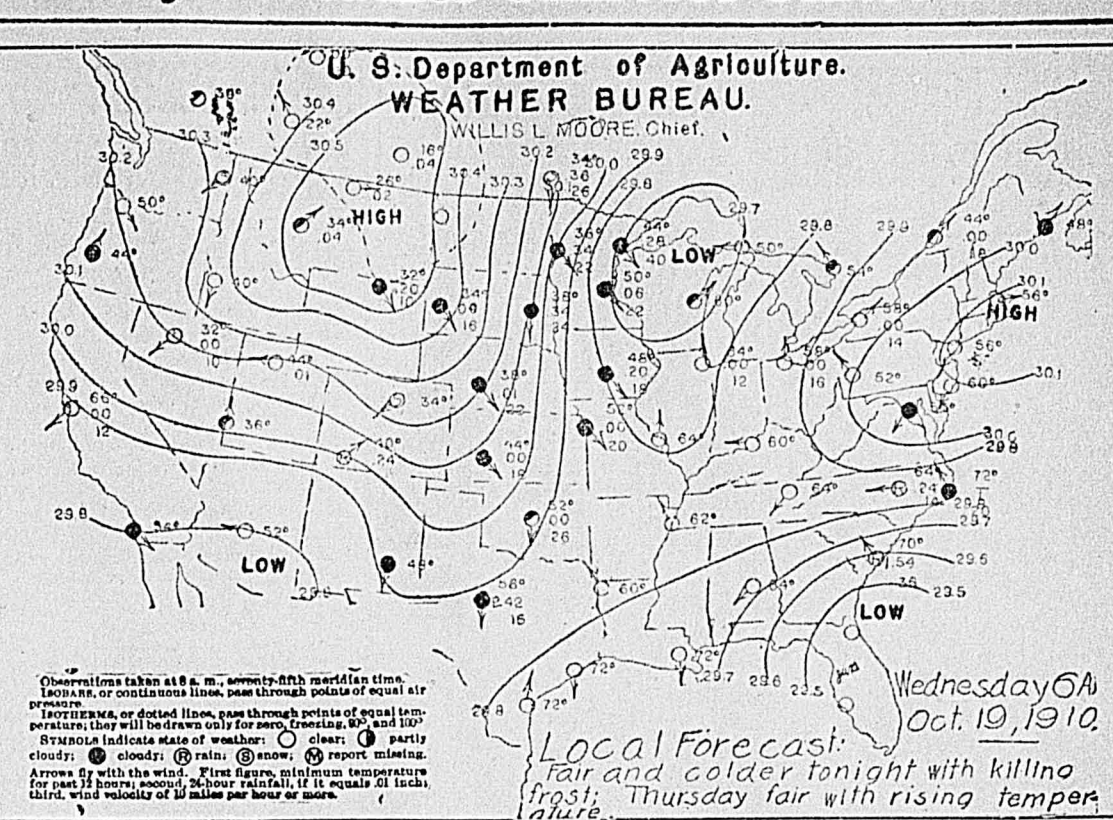

Local fish market men are observing with complacency that express messengers and train hands between Salt Lake and New York are no longer able to help themselves to oysters in the express cars en route, for the good and sufficient reason that tub oysters are a thing of the past. The new pure food laws forbid their shipment in any other form than what is known as "sealship," that is, contained in porcelain lined crocks, with ice packing on the outside, the whole being included in a jacket can. No fresh water, whether from ice or other sources, is allowed to come in contact with the oysters which are thus preserved in their own liquor and retain their distinctly delicious flavor. As the cans are padlocked, no one can get at the contents until opened at the termination of shipment.

Oysters which are largely shipped in tubs filled with ice water. This soaked all the real goodness out of the luscious bivalve, leaving it for the most part tasteless and soggy. The tub covers were easily removed, so that train men so inclined were prone to help themselves, at times liberally. This resulted in a shortage which the express companies were required to make good. Unsuccessful efforts were made to stop the practice until the "sealship" contrivance was adopted in shipment.
